

Elevate your construction project

Boost progress, reduce costs, and improve project flow - together with the experts at Interaxo Consulting. Our advisors will help you utilise Interaxo Project to its full potential - ensuring greater efficiency and better results. By taking advantage of everything the tool has to offer, you free up time to focus on what really adds value to your project.

We help you succeed

Whether you're new to Interaxo or have years of experience, working with our advisors will help you maximise results and ensure project delivery at the highest level.

» Strategic advisory

We analyse structure and workflows, identify bottlenecks, and help you make the best decisions from the beginning and beyond.

» Tailored workshops and trainings

We offer practical training sessions for both administrators and users. We tailor the content to your specific needs, ensuring that all team members are confident and effective users of Interaxo.

» Kick-start support in new project phases

Whenever your project shifts gears, we're ready to help you plan the next steps ahead. Achieve maximum value from your Interaxo tools and internal processes.
